HOYNE PULLS RAID ON SPORTSMEN'S CLUB

State's Att'ys Detectives Grab Records in War on
Gambling—Act Has City Hall Standing on Its
Head—Ass't State's Att'y Berger
Explains the Move.

There is whoop to pay around the City Hall today over the raiding of the Sportsmen's Club of America by detectives from State's Att'y Hoyne's office. The Sportsmen's club was organized by Mayor Thompson and James Fugh, wealthy warehouse man, previous to the political campaign which elected the present city administration.

The raiding sleuths, armed with subpoenas, seized records, books, canceled checks and secretary's min-

utes on the details of organization and membership lists. Ass't State's Att'y Berger, on viewing them, said he expects to lay the material before the grand jury, which started work today.

"There has been much evidence gathered that the Sportsmen's club is not in reality an athletic organization, but more of an inside political organization," said Berger. "We may be able, through this raid, to uncover evidence of ballot fixing and graft."
